Description

Dispensing cabinets optimize material dispensing for various applications and secure the storage of work materials, whereby they enable a decentralized overview and real-time control of the inventory through intelligent networking.

Workflow

Benefits

- safe storage and dispensing of materials of your choice
- documentation on the status of the system / article
- system notifications for desired cases
- expansion of the service offering
- decoupling of compulsory attendance
- user-friendly

Features / Configurations

Features are various capabilities and functions of a smartlocker system, that can be displayed within an individual use case.

Standard features

- customized CI / UI
- mail dispatch interface (mail server)
- customized mail texts
- Microsoft Azure interface
- reading customer-specific card segment (RFID)
- payment functions (PayPal / credit card)

Use case features

- safe storage and dispensing of materials of your choice
- documentation (inventory, type of material, storage period, ...)
- notifications (new storage, low stock, ...)
